Example

License:	ASIC AR
Country	Australia
Delivery	3-4 weeks
Deposit	Not required
Monthly operational fee	\$7,500.00 (X3 q/q)
Annual renewal fee	\$2,100.00

How the process will be if we want to go for it?

1. If the company is start-up brokerage, for Asic we need to ask client to provide informaiton, holding license to check first
2. For Asic AR, client can submit document as usual.

What are the steps and necessities that we need to do?

1. Screening client
2. Sending us the required document & fill up the form
3. Waiting for listing in website

How is the contract in this case?

Monthly fee will be collected by quarterly up-front(every 3 months)

Are we allowed to quit the license (let's say after a year) ?

Ans : Yes, you allow to do that after 1 year

Is it totally legal and contains no risk?

Yes : it is legal and can check from official website

Any other critical step?

Client's document needs to be verified and notarized.

For applying Asic not Ar, we don't recommend for start-up brokerage except brokerage holding other fx licenses before applying Asic.

The Seychelles Securities Act 2007 provides the legal framework for the provision of Securities Dealer Services. The Seychelles Securities Dealer License is a license which allows your company to trade in securities either as a principal (on its own account) or as an agent (on behalf of its clients) - e.g. in Managed Accounts. The regulatory authority is the Financial Services Authority (Seychelles) - FSA. This license is particularly beneficial for companies worldwide, who deal and/or trade in securities. This license is an important tool for your organization to attract more clients. The SDL holding company can provide bank-like activities such as creation of own FX or CFD related products and taking deposits from clients. There are no restrictions in the number of clients to be accepted
